

One less thing to think about when you come to Rodney Surgical... Parking!

It's a drag at the best of times, and it's not just the cost. With some hospital car parks, you need to take a pair of walking shoes to get to the admission block. Not at Rodney Surgical.

At our custom-built surgical centre in Warkworth, we have more than enough parking. It's just one less thing for you to worry about.

And because we're your community hospital, you can get

a taxi home, or your driver can drop you off and go home while you have your surgery. We will call when you are ready to be collected.

Rodney Surgical is a world-class hospital with fully qualified, experienced, caring staff and surgeons. It's your community hospital right here in Warkworth ... including free parking.

Ask your GP – Can it be done at Rodney Surgical?
